LinkedIn: https://www.linkedin.com/in/h-m-prashantha-607643348-

Final-year MCA student with strong proficiency in Python, web development, and hands on experience in building real world full stack and machine learning projects. Passionate about emerging technologies such as Artificial Intelligence, Data Science, and Software Development, with excellent problem solving, communication, and teamwork skills.

SKILLS

Programming: Python , C , Java , Html , Javascript , Css , Reactjs
Database: Mongo DB,SQL
Data Science: Data analysis, data visualization, basic Machine Learning concepts

EDUCATION

Master Of Computer Appliction: CGPA-8.6 ,Kishkinda University,Bellari,| Pursuing(4th sem)

Bachelor of Science: Bsc in PCM | Percentage - 65.23% **,** JSS Banashankari arts and commerce & S K Gubbi science collage Dharwad

PUC: Renuka Comp Science PU Collage| 2018-2020 | Percentage: 61%

Class 10th : Jnana Jyothi English Medium School | 2017-2018 | Percentage : 82%

PROJECTS

1.Product Catalog Management System|2025

Developed a Product Catalog Management System using Python, MySQL, HTML, CSS, and JavaScript to manage product records efficiently. Implemented CRUD operations, database integration, and a responsive UI for streamlined inventory management and product search.

2.Home Rental Web Application|2025

Developed a full stack Home Rental Web Application using Flask, MySQL, HTML, CSS, and JavaScript for managing rental property listings and user interactions. Implemented database integration, authentication features, and responsive frontend pages to provide an efficient property booking and management experience.

3.AI-Powered Used Car Price Prediction|2026

Developed an **AI Powered Used Car Price Prediction** web application using React.js for the frontend and Flask for the backend. Integrated machine learning models using Python, Pandas, and Scikit-learn to predict used car prices accurately based on vehicle features and market data.

4.AI-Powered Gesture-Controlled 3D Data Explorer |2026
Developed AI Powered Gesture Controlled 3D Data Explorer using React, Flask, MediaPipe, and MongoDB enabling real time hand gesture recognition with 95%+ accuracy and interactive multi dimensional data visualization across 3 chart types (Scatter, Bar, Surface) with <100ms WebSocket latency

INTERNSHIP EXPERIENCE

Python Internship| 2025
Completed a Python Internship at Kishkinda University where I gained hands on experience in Python programming, system design, and project documentation. Contributed to the Product Catalog Management System by designing flowcharts, preparing documentation, and presenting the project overview and key features during the final presentation.

CERTIFICATIONS

- Machine Learning by infoys Springboard
- Prompt Engineering by infoys Springboard
- Python Programming by Skill india Academy
- Java Language by Coursera

ACHIEVEMENTS

- Maintained consistent academic excellence across all semesters.
- Served as a coordinator for the college cultural fest, show casing leadership and event management skills.
